AFFIDAVIT OF RICHARD VERRAULT

Dear Sir:

I, Richard Verrault, swear and attest that I am the co-inventor named in the above-identified application.

I am submitting this Affidavit in order to supply information regarding the dilemma in obtaining signature of the other inventor for this application, Alain Jacques.

Mr. Jacques, the co-inventor for the above-identified application, has embezzled funds from Visimax, Inc., the Canadian company that originally developed this invention. The embezzlement has been well documented and is now the subject of litigation in the Province of Quebec.

Mr. Jacques has been asked on several occasions to execute documentation as inventor and no reply has been received from him.

0008:008

I, myself have had funds embezzled by the co-inventor, Alain Jacques, and find it impossible to either obtain or reason with Mr. Jacques in order to have him execute any documentation regarding this application. Attached hereto is a declaration on my behalf as a co-inventor.

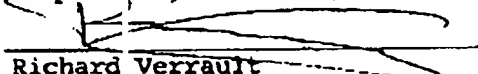

I hereby declare that all statements made herein of my own knowledge and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent

Date:

18-Oct 2001
